

**MICROBAND APPLICATOR KITS**  
**TO FIT**  
**REEKIE “JUMBO” 2 - ROW PLANTERS.**

**SINGLE HOPPER**

**DUAL**

**HOPPER**

The above kit has been designed to allow chemical microgranules to be applied at the time of planting into the seed furrow.

The chemical is delivered from a 35 litre two outlet Microband rectangular hopper unit, which is driven via a direct drive taken from a planter cross shaft already fitted to the planter, with a chain and sprocket variable drive to alter chemical application rates.

**A complete kit is supplied and ordered as follows in two parts :-**

**1/ Drive and mounting kit :-**

- 640629** Reekie “Jumbo” planter drive and mounting kit for a single hopper 2- outlet unit.  
**OR**  
**640630** Reekie “Jumbo” planter drive and mounting kit for a dual hopper 4- outlet unit.  
( Allows two different products to be applied at the same time at different rates. )  
**OR**  
**640631** Reekie “Jumbo” planter drive and mounting kit for conversion from a single hopper (2-outlet) to a dual hopper (4-outlet).  
# Converts 640629 to 640630.

The above kit consists of all mounting brackets and fasteners, delivery tubes and direct drive assembly with a variable chain and sprocket drive.

**2/ Microband 35 Litre 2- outlet Hopper Unit :-**

\* The type required are to be stipulated by the customer, with regard to which type of metering rotor is required to apply a particular chemical / application rate. This information is supplied by the chemical manufacturer / distributor.

\* **If the type of rotor is not stipulated at the time of ordering supply the following :-**

- 760400** Microband 35 Litre 2-outlet rectangular hopper unit fitted with 1 x 8mm rotors per outlet.  
# REVERSE ROTATION WEAR STRIP HOPPER UNIT.

x 1-off. ( FOR KIT 640629) **OR** x 2-off ( FOR KIT 640629)

**Hopper unit options :-**

- 760129** Microband 35 Litre 2-outlet rectangular hopper unit fitted with 1 x 3mm rotors per outlet.  
# REVERSE ROTATION WEAR STRIP HOPPER UNIT.
- 760134** Microband 35 Litre 2-outlet rectangular hopper unit fitted with 1 x 3mm rotors # CLEAR PLASTIC SPECIAL FOR ABRASIVE MATERIALS per outlet.  
# REVERSE ROTATION WEAR STRIP HOPPER UNIT.
- 760135** Microband 35 Litre 2-outlet rectangular hopper unit fitted with 1 x 5mm rotors per outlet.  
# REVERSE ROTATION WEAR STRIP HOPPER UNIT.
- 760136** Microband 35 Litre 2-outlet rectangular hopper unit fitted with 2 x 3mm rotors # CLEAR PLASTIC SPECIAL FOR ABRASIVE MATERIALS per outlet.  
# REVERSE ROTATION WEAR STRIP HOPPER UNIT.
- 760137** Microband 35 Litre 2-outlet rectangular hopper unit fitted with 1 x 6mm rotors # RED PLASTIC SPECIAL FOR ABRASIVE MATERIALS per outlet.  
# REVERSE ROTATION WEAR STRIP HOPPER UNIT.
- 760400** Microband 35 Litre 2-outlet rectangular hopper unit fitted with 1 x 8mm rotors per outlet.  
# REVERSE ROTATION WEAR STRIP HOPPER UNIT.
- 760401** Microband 35 Litre 2-outlet rectangular hopper unit fitted with 2 x 5mm rotors per outlet.  
# REVERSE ROTATION WEAR STRIP HOPPER UNIT.
- 760402** Microband 35 Litre 2-outlet rectangular hopper unit fitted with 2 x 6mm rotors # RED PLASTIC SPECIAL FOR ABRASIVE MATERIALS per outlet.  
# REVERSE ROTATION WEAR STRIP HOPPER UNIT.
- 760403** Microband 35 Litre 2-outlet rectangular hopper unit fitted with 1 x 14mm 9 - DEEP FLUTED rotors per outlet.  
# REVERSE ROTATION WEAR STRIP HOPPER UNIT.
- 760404** Microband 35 Litre 2-outlet rectangular hopper unit fitted with 1 x 15mm rotors per outlet.  
# REVERSE ROTATION WEAR STRIP HOPPER UNIT.
- 760406** Microband 35 Litre 2-outlet rectangular hopper unit fitted with 2 x 14mm 9 - DEEP FLUTED rotors per outlet.  
# REVERSE ROTATION WEAR STRIP HOPPER UNIT.

# For spare parts details see instruction book part No. 032068
